

HARNESSING GLOBALISATION FOR CHILDREN

*A report to UNICEF**

*** The papers included in this study present the views of their authors and not those of UNICEF.**

** The project which has generated the papers included in this study was started in 1999 in the Evaluation and Policy Planning Division of UNICEF's Headquarters under the leadership of Eva Jespersen and Jan Vandermoortele. Following their transfer to new positions in UNICEF and UNDP respectively, the co-ordination of the project was transferred to Giovanni Andrea Cornia of the University of Florence who took care of its continuation, recasting and finalisation. The completion of the project would not have been possible without the strong support provided by Eva Jespersen who – besides managing the project in its initial phase – played an important role in the finalisation of the papers by Sadasivam and Richter-Satow. She also provided many suggestions on other papers and the overall structure of the report. Comments on earlier drafts of papers in this compilation by Nick Drager, Kul Gautam, Mehr Khan, Richard Morgan, David Parker, Sadig Rashid, André Robertfroid, Frances Stewart, Kiari Liman Tinguiri, Kevin Watkins and David Woodward are gratefully acknowledged. The papers were peer-reviewed during meeting held at UNICEF-IRC, Florence, on 23-25 April 2001. The project benefited from the generous financial contribution of the German National Committee for UNICEF.
